FTR ASSOCIATES

Quality Manager | Santa Fe Springs CA

June 1998 - October 2021

Started as a operator in 1998-2000 worked in many departments, Manager shipping in receiving from 2000-2003, EDM Electro Discharge Machinery 2003-2005, Deburring department, Punch press department and quality manager. As a Quality Manager I created FTR's QMS to prepare to get certified with ISO9000 and FTR got approved and became an ISO9000 company since then i'm always learning ISO and AS9100 In FTR I Used calipers, Keyence, micrometers to inspect quality of products, taking note of functionality, appearance and other specifications. Inspected Product or service with accuracy, reporting problems or defects quickly. Identified and helped resolve production problems, increasing output while reducing errors. Completed precise measurements using special tools. Inspected outbound shipments and conducted random sampling of product quality. Utilized gauges, tools and equipment to complete in-depth assessments. Worked with specific production team members to rectify production issues and maintain high-quality final products. Collected samples during production and tested randomly to determine in-process product quality. Presented clear, organized data in graphs, charts, tables and written reports. Kept detailed notes of product functionality, specifications and appearance using Software. Introduced Software to quality inspection team to speed up processes and increase productivity. Quality Management Inspection protocols Responsible Excellent work ethic Blueprint reading. In charge of 2 inspectors helping them with their tasks.
